PROS AND CONS OF BILINGUAL SCHOOLS IN SPAIN.

Nowadays it is a well-known fact that learning a new language is very important. We have different forms to learn English. One of them is going to a bilingual school, but there are advantages and disadvantages with this form.

One of the main advantages is that you can learn English very fast, and you won't have problems with the most important language in the world. Another good thing about a bilingual school is that they give you more opportunities to travel or to get a good job in another country.

On the other hand, a bilingual school also has some negative aspects. One of the drawbacks is that there aren't a lot of them in Spain, and some of them are very expensive.

On balance, I would say that they are a good option to learn and in the future to get a good job, but there aren't enough opportunities to families with less economic resources.
