

A FRIGHTENING EXPERIENCE: TEASING A MAD MAN

Two summers ago I was in my village, El Viso, with my friends. We were in the main square where we were thinking about what we ~~could do it~~ ^{could do.} When suddenly, one of my friends thought a frightening thing, and an incredible thing happened. My friend had decided to go to Claudio's house, outside the village, who is a madman, and throw ^{to his door} eggs.
C.O.

When we did it, Claudio went out and started to ^{chase} ~~persecute~~ us, with his car on the gravel road. At first, we didn't see him and we were telling jokes but suddenly we saw him and immediately we started to run for in the middle country, running for ^{seed-bed} "Sementeras", Claudio ~~when~~ saw us and he understood that he ^{couldn't} ~~can't~~ enter with his car in the country, got down and started to ~~persecute us~~ ^{chase} running.

At the end, we arrived ^{at} ~~to~~ the village and we felt safe and sound. Just in case, we decided to go to the main square where there were a lot of people. It was the most frightening thing I've ever done. I'll never forget it.
