"MONEY IS ESSENTIAL IN OUR LIVES"

We are always consuming: the water we use to have a shower, the electricity for charging our mobile phone ... If we don't pay for what we use, we will never stop wasting, that's why I'm in favour of using money.

Firstly, if money doesn't exist we wouldn't need to work in order to survive. But if we hadn't worked during all this time we wouldn't be able to have all the ~~the~~ advanced things we have like medicines or technology.

Secondly, money is the way to control material things. Imagine that you grow tomatoes and you want to change them for a television but you can't because the television value is ~~bigger~~ bigger than tomatoes. That's why you can't afford it, because you will be in debt with the owner of the television.

~~For finishing~~ ^{To finish / to conclude,} we should be aware that if we wish something we can get it in an easier way thanks to money and hard working to get it.

Nowadays you don't have to ~~act~~ like a man from the year 3000 ^B.C. changing your things for a can of soda!
