## **MY FRIEND ROBERTO**

My friend's name is Roberto. He is twenty years old.. He was born in Burgos, Spain, but he is living in Madrid now. He is a student at Complutense University in Madrid.

Roberto is a calm person, he isn't nervous but he's got a bad temper. Roberto is very generous and he is well behaved, too. He is a good student, and he loves studying at the university library. His favourite subjects are Maths and Technical Drawing. He wants to become a very famous architect.

Roberto really likes playing video games with his friends because he loves technology. He spends a lot of money buying video games on the Internet. He enjoys playing tennis, too but he hates playing basketball. It's a very difficult sport for him! He doesn't like reading so he doesn't spend any time reading books or comics. He really likes listening to reggae music and he's got a lot of CDs.

Roberto has got a lot of friends and he speaks Spanish and Japanese. He is interested in learning English and how to design video games.

## **MY BEST FRIEND**

My friend's name is Veronica but all her friends call her Vero. She is thirteen but she looks one or two years older because she has very pronounced facial features.

Veronica is so crazy because she doesn't have shame but she is a very good close friend. My friend is quiet and friendly too and she quickly makes friends. She plays volleyball with me in the same team, but she doesn't enjoy playing with her sister because it is a little bit boring. She spends her money on clothes and equipment for volleyball.

Veronica usually meets only with girls because they are more reliable than boys. She speaks Spanish of course, fluent English because she has got some degrees and a little of French. Vero studies French only because it is the option in the high school. She's interested in learning how to dance like her mother, but she isn't very good at dancing.

So my recommendation is to continue playing volleyball because is the best in our team.
