## **MY FAMILY AND MY ROUTINE**

I'm going to write about my family and my routine during the week. I do a lot of activities that are usually funny. I have got two brothers and a sister. They are called Pablo, Adelina and Darío. I'm the eldest of my brothers, although there is not much age difference with Pablo. My parents are divorced, so I spend more time with my mother than my father.

First, I get up approximately at seven o'clock, although I sometimes get up late. I nearly always arrive on time. Then, I have a shower and my brother Pablo has a shower too. After that, I dress up and he also dresses up. I don't like wearing my school uniform but it is obligatory in my school. Next, I have breakfast. I normally eat a yogurt or drink some milk with a biscuit. Then, I take my bus pass because I often go to school by bus. At school, I pay attention to my teachers and I do classwork. I hardly ever talk to my friends. Next, I go to "EL BUHO" (a child care centre) to have lunch. My brother Pablo has lunch there, too. Finally, I go back home on the bus.

After all that, my brother relaxes only fifteen minutes and me too and next, I start to do my homework but I don't sometimes finish it because I must go to extracurricular activities. It's possible to be basketball or English, it depends on the day. We have got English on Monday and on Wednesday from quarter past five to quarter past six and we have basketball on Tuesday and on Thursday from five to six. My brother has less homework because he does it at school, but he studies a lot. We finish homework while my mother prepares the dinner. After that, I have a shower. My mother usually asks us to lay the table. While we are having dinner, we watch TV. My brother watches "The Simpsons" but I prefer watching another thing. Finally, I brush my teeth and read for thirty minutes and I go to bed.

My daily routine is very stressful but I do a lot of things and I have got time to do all of them.

## MY FAMILY AND MY ROUTINE

I'm going to write about my family and my daily routine. I've got a brother and a sister. My brother is intelligent and handsome but he is stubborn for me. My sister always wears a broad smile. My father studies French more than me and he is always funny. My mother is the queen of our house but she is a little bossy.

First, my father gets up at 5:50 in the morning because he works in Sevilla and he has to travel by train. I get up at the same time my father leaves home. I get up at 6:30 but I need five or ten minutes to ginger up. Then, I get dressed and I sometimes have breakfast, but not every day, because I haven't got enough time. At 7:45 I go to school with my neighbour ours because they are in my school too. Our lessons start at 8:00 so we have to run to be on time. My brothers and my mother get up at 8:00. They get dressed and have breakfast because at 9:00 my brother must go to his school, my sister must go to her kindergarten and my mother goes to her gym. Later, my mother gets out from her gym, and she usually goes home to prepare lunch, but she sometimes goes shopping with her friends. My brothers finish their lessons at 14:00 and my mother also goes to pick them up. Next, I leave the school at 14:30 and I go home with my friends. When I arrive home I walk my dog before lunch, and then I have lunch with my mother.

After that, at 15:30 my mother watches TV while my sister is sleeping and my brother and me are doing our homework. On Monday and Wednesday my brother hasn't got any extra lessons, but I have English lessons from 18:00 to 19:00 in La Milagrosa school with my friends. In the meantime my brother is looking after my sister because my brother is drinking coffee with my aunt at home. After that, my father arrives from Sevilla and he picks me up, he usually arrives late although he runs a lot to pick me up. When we arrive home he looks after my sister and my brother does his homework. I usually finish homework and study at 21:00. On Tuesday and Thursday my brother

has extra lessons from 16:00 to 19:00, some Tuesdays I have chorus lessons from 19:00 to 21:00 and then, I finish my homework with my friends. At 22:00 I arrive home. Normally, my brothers have already been showered. I have a shower and then we have dinner. Finally, we prepare our school bags and we go to bed. My mother goes to bed at the same time we do, because my little sister stresses my mother every night, but my father goes to bed later.

This is my routine. For me is a good routine. I love my family and we are very happy with it, but this routine doesn't finish.

## **OUR FAMILY ROUTINE**

Hello! My name is Alberto and I'm going to write about my routine and my family routine on Thursday. I'm an only child and I'm twelve years old. I love playing basketball. My father is a doctor and he's forty seven years old as my mother. She is a doctor too. But they work in different specialities

First, I get up at ten to seven as my mother but my father gets up five minutes later than us (we often sleep five minutes more like my father). I have breakfast, sometimes oil, toast or cereals. Next, I go to school by car but before, my mother kisses me. I always listen to the radio into the car. It's fantastic: It's better than watching TV. Then, my father goes to the hospital like my mother.

On the first hour I've got natural science, next language (it's always funny), After that, we study religion. Then, the break, we usually play the game "police and thieves". When the break finishes we go to the music class, we learn a lot in this subject. After this class we have PE, we also go to the swimming pool. At the last hour we study maths although we are very tired. After the lessons I go back home on foot and I speak with my best friends Alex. He's very funny and he's never sad. He's funnier than José Mota. When I return home I normally have lunch with my parents and my mother washes the dishes. Then, my father watches "Saber y ganar". I like too but at quarter past four I have to go to the language school, and my mother relaxes. After that, I do my homework and I also study a lot. At six o'clock I eat something and fifteen minutes later I wear basketball clothes. I nearly always go to basketball trainings on Thursdays. It's from seven o'clock to nine o'clock. I have a great time but it is harder than doing homework. Finally, I have a shower, I have dinner and I watch TV. At eleven o'clock I go to bed (I rarely go to bed at this time I return home later on Thursdays).

So, that's all and we repeat this routine all Thursdays.
